LETTER OF APPRECIATION

4th January, 2021.

SUBJECT: Acknowledgement of Mr. Manvendra Singh Chhajerh for his contribution in my research as well as in guiding budding engineers.
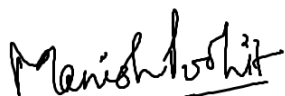

Respected Sir/Madam,

I would like to acknowledge the contribution and appreciate the work done by Mr. **Manvendra Singh Chhajerh**, from **R.V. College of Engineering**, batch 2017, in my research and in guiding budding engineers under my supervision from September 2020 to December 2020.

With his skills and his sound knowledge in the field of Machine Learning, he has contributed in my on-going research. He is a hardworking student and approaches every problem very well with his lateral thinking. His obedient nature and persistence efforts in solving any given problem is definitely noteworthy.

He is not only a quick learner but can also impart his knowledge to others with ease. His ability to teach things with day to day analogies, makes learning very easy for learners. He has volunteered to teach and guide students of various colleges as well as engineering aspirants, in programming and its related fields.

In my opinion, Manvendra possesses the right attitude and temperament to perform well under pressurising circumstances as he has managed both his college academics as well as worked under me at the same time.

Thank you & Regards,

Manish Purohit,
Space Scientist (Ex-ISRO)
